

#### PRODUCT INFORMATION:

"The Turatti Frazer Capper was developed to remove the strawberry calyx (top green cap with leaves). This system can also be used in the removal of the radishes' calyx."

"The innovative design, eliminates manual labour and handles each strawberry gently to prevent mechanical damage. The unit can be easily integrated into a compact processing line, that gently washes, disinfects and dries each strawberry for unmatched quality and efficiency."

Make: Turatti

Model: Frazer

DoM: 2015

Origin: Italy

## FEATURES:

The main advantages and features of the machine are:

- Labour saving.
- Quality of the finished product.
- Dry slice without making use of water.
- High capacity.
- Easy maintenance and sanitation.
- Very high-quality blades.

## TECHNICAL:

- Capacity: 240 pieces per minute with 4 people per load (80 Kg.-H. of product)
- Power: 415V 9kW

## MEASUREMENTS:

- Overall Dimensions: 4200mm L x 1400mm W x 1850mm H
