

EXS306 Semi Automatic Strapping Machine: Efficient Strapping for Diverse Applications by **PACKMACHINE**, Bangalore

EXTEND BRAND EXS306 Semi Automatic strapping machine. Designed to tension, seal and cut 9 – 16mm PP strapping around carton boxes. Used with semi auto grade strapping. Simply load the strapping onto the machine and feed it through the mechanism. Place the carton on top of the deck and feed the strap into the strap guide to activate the strapping process. The machine will automatically tension, seal and cut the strapping, giving a perfect strap every time. Recommended for medium volume applications.

Benefits

- Easy and safe to use
- Fast, secure strapping
- Straps parcels from small to large
- Adjustable strap feed
- Adjustable tension

Features

- Enclosed Cabinet for added protection of machine components
- Quadruple access doors for easy access and serviceability
- Simple to use - Minimal Operator Training
